

Our Captain™ or other multifunction boards can add up to 384K bytes of memory to your IBM PC. They'll give you additional serial and parallel ports as well as a built-in clock/calendar. With each board, you'll get our Treasure Chest™ of Software (24 programs in all) at no extra cost.

Tecmar's Lab Master™ is ideal for process control and the tracking of laboratory experiments in industrial and scientific applications. It converts analog data to digital data, and back again. Sophisticated timing is accomplished throughout this process by Lab Master's timer/counter circuitry (AMD 9513). The Lab Master has 24 digital I/O lines. 12-bit resolution is standard while 14- or 16-bit resolution is optional. Additional A/D and D/A channels are also available.

For your graphics needs, Tecmar offers the Graphics Master™. With it, your PC gets graphics support for most popular software packages like Lotus 1-2-3™, Open Access™, AutoCAD™, and all IBM color software. Graphics Master works in high resolution color (640 x 400) or Monochrome (720 x 700).

Peripheral Vision

When your computer needs peripherals, it pays to go with the company that has the peripherals and the vision. Tecmar.

In all, Tecmar has more than 150 peripherals and add-ons for your computer. So, when you're ready to expand, ask for Tecmar. Or write for our brochure.
